

III. Grafische Darstellung über Gebäude- und Fassadenlänge, Mehrlängenzuschlag, Gebäudehöhe, Dachaufbauten

① § 43 Abs 1 BNO

② § 43 Abs 2 BNO

W2: A $\approx 4,00\text{ m}$
 $B = 4 + \frac{27 - 12}{4} = 4 + 3,75 \approx 7,75\text{ m}$
 $C_1 = 4 + \frac{24 - 12}{4} = 4 + 3 \approx 7,00\text{ m}$
W3: A $\approx 5,00\text{ m}$
 $B = 5 + \frac{27 - 12}{4} = 5 + 3,75 \approx 8,75\text{ m}$
 $C_2 = 5 + \frac{24 - 12}{4} = 5 + 3 \approx 11,00\text{ m}$

$$\begin{aligned} \text{W2: } C_1 &= 4 + \frac{16 - 12}{4} = 4 + 1 = 5,00 \text{ m} \\ \text{W3: } C_2 &= 8 + \frac{16 - 12}{4} = 8 + 1 = 9,00 \text{ m} \end{aligned}$$
$$X = 8,00 - (8,00 : 2) = 4,00$$
$$X = 8.00 - (6.00 : 2) = 5.00$$
$$X = 8,00 - (6,00 : 2) = 5,00$$
